Epiphany's e-Consolidate provides invoice and Estimate consolidation functionality to NetSuite.

Easily combine multiple invoices into one proforma invoice; and multiple estimates into one proforma estimate without affecting forecast reports or your general ledger. Line item detail is provided and total/summary information is automatically calculated and shown in the header area.

Developed 100% in NetSuite's SuiteCloud development platform, econsolidation harnesses the power of the leading Cloud-based ERP/Financial management suite.

Simple and easy to use!

- Open a new Estimate and select the Customer
- Choose the Multiple Invoice select button
- View list of Invoices available for selected customer
- Choose which Invoices need to be combined
- Save the Estimate – Epiphany's e-Consolidate does the rest
- Line item detail is automatically populated after savings the Estimate.

Business Benefits and Features

Multiple Line Consolidation
Simplify order management or package offering processes
Business Benefits

Whether you're ordering the same item on an estimate or sales order from multiple vendors or entering multiple items on an estimate or sales order, which are part of a package offering – **e-Consolidate** lets you consolidate multiple lines into one.

It's simple to use!

1. Open new estimate and select the customer
2. Use sequential numbering to identify what line items should be consolidated
3. Save the estimate
4. Each line remains as an individual line on the estimate. Consolidation takes place when printing the proforma invoice or proforma estimate.

On the Proforma Estimate/Invoice:
- Qty shows the total of all consolidated line item Qty columns
- Unit price is the "average" of all consolidated line items
- Total is the total price of all consolidated line items
