Epiphany's e-Job Costing delivers a powerful project & job costing solution for NetSuite. e-Job Costing enables project based businesses to quickly and easily track revenue, expenses and profitability by job, installation, work-order or contract.

e-Job Costing extends native NetSuite functionality to provide insight into job cost data from estimates to proactively manage labor, materials, equipment, and other user-defined cost categories.

e-Job Costing's dashboard driven management approach provides enhanced insight and visibility into job cost details and Key Performance Indicators (KPI's).

Developed 100% in NetSuite's SuiteCloud development platform, e-Job Costing leverages the power of the leading Cloud-based ERP/Financial management suite.
